DETAILED ACTION

Claim Objections

1. Claims 7 and 8 are objected to because of the following informalities:

Claim 7, line 2, "at least one wire" should be changed -- the at least one wire--.

Claim 8, "fastner" should be changed -- fastener --.

Appropriate correction is required.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 4-7 and 10 are rejected under 35 U.S.C. 102(b) as being anticipated by Allen (5,442,136).

Allen, figures 1 and 2, discloses a joining member for use in a modular system for managing wires comprising:

- an inner portion 921) having an inner surface adapted to engage a first element (20);
- an outer portion (22) having an outer surface adapted to engage a second element (11);

wherein the outer surface being adapted to be enclosed by the second element; and

Art Unit: 2839

wherein the joining member is capable of accommodating at least one wire (12) radially inward of the outer surface and radially outward of the inner surface.

Regarding claim 5, the first element is a column.

Regarding claim 6, the inner surface defining a hole extending through the joining member.

Regarding claim 7, a second hole disposed radially inward of the outer surface accommodates the at least one wire.

Regarding claim 10, a rib disposed in the inner surface and protruding radially inward of the inner surface.

Allowable Subject Matter

4. Claims 8 and 9 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

5. The following is an examiner's statement of reasons for allowance:

None of the reference discloses an offset fastener, a hinge and a seam, in combination with the other claimed elements of the embodiments recited.

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
